

# GRUPO INERZIA

it's life, it's pure Inerzia

Newsletter  
May 2014.

## NEWS... in the H&S sector.

The best and most flamboyant eye protection filter is Spanish, just put on sale and has a very reasonable price. Lenses with filters certified CSR, a Spanish patent that blocks harmful light and prevents eye diseases that can lead to severe vision loss future. Glasses on the 2nd CSR.

Spanish contribution to the global eye health, new lenses protect the eyes CSR working with backlit screens such as mobile or tablet computers, as well as exposure to sunlight.

### What advantages do new filters CSR?

- In everyday, CSR filters enhance contrast and visual comfort.
- A long term, CSR filters protect the retina from light-related toxic diseases.
- In patients with low vision, are expected to contribute to CSR filters slow the progression of degenerative diseases of the retina, as well as providing visual aid.

The CSR filters prevent the effects of blue light, which erodes the long-term view and is the cause of diseases such as cataracts, glaucoma or AMD.
